Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 1-31-2003 has been entered.

Reissue Applications

In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 1-3, 7, 13-22, 26 and 30-50 are rejected as being based upon a defective reissue because the oath/declaration fails to describe the actual errors in the patent, i.e., it fails to describe the errors corrected by the amendments and additional claims added in the reissue, as required under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

This application is objected to under 37 CFR 1.172(a) as lacking the written consent of all assignees owning an undivided interest in the patent. The consent of the assignee must be in compliance with 37 CFR 1.172. See MPEP § 1410.01.

A proper assent of the assignee in compliance with 37 CFR 1.172 and 3.73 is required in reply to this Office action.

Art Unit: 1616

The amendments to the claims filed on 7/15/1998, 9/29/1999, 1/31/2003 do not comply with the requirements of 37 CFR 1.73(b) because: 1) in the amendment filed 7/15/1998, the added new claims (30-48) are not underlined as required, 2) in the amendment filed 9/29/1999, the amended claims do not include the entire text of each claim wherein the changes are marked as required, i.e., brackets "[]" for deleted text and 3) in the amendment filed 4/31/2003, new claims 49 and 50 are not underlined.

NOTE: It is suggested that a new amendment is filed having all the pending claims in a final copy format having all of the changes set forth in accordance with 1.73(b), i.e., including the entire text of each claim and the appropriate markings for all added text and deleted text, i.e., underlined for added text (including new claims) and [brackets] for deleted text.

Conclusion

The claims are free of the art of record.

The application may be put in condition for allowance by correcting the deficiencies set forth above. In sum, **1)** filing a substitute oath/declaration (see above), **2)** surrendering the original patent (or providing a statement as to loss or inaccessibility of the original patent), **3)** filing a written consent of all assignees owning an undivided interest in the patent in compliance with 37 CFR 1.172 and 3.73 (See MPEP § 1410.01) and **4)** filing an amendment with all pending claims in a final copy format having all of the changes set forth in accordance with 1.73(b), will provisionally place the reissue application in condition for allowance.
